Probably the Only Statement She Will Make, Says the Editor.

CHIROGRAPHY GOOD

For Forty Years, She Says, She Has Returned Good for Evil.

In the Independent, out to-day, appears an original article by Mrs. Mary Baker G. Eddy, in answer to recent criticisms. It is introduced by the following statement of the editor:

In response to a request by The Independent, following the unfounded statements as to her Illness, Mrs. Eddy has been good enough to send us this article, which we have re-ceived in her own handwriting, and which shows none of that tremulous unevenness which often appears in the chirography of a person of her age, she being in her eighty-sixth year. This is the first statement which Mrs. Eldy has made as to recent events, and it is probably the only one she will make.-Editor.

7 OD hath thrust in the sickle, and He is separating the tares from 1900 that the Standard Oil Company did the wheat. This hour is molten in the furnace of Soul. Its harvest song is world wid e.world-knon, worldgreat. The vine is bringing forth its fruit; the beams of right have healing in their light,

The lie and the liar are self-destroyed. Truth is immortal. "Rejoice and be exceeding glad; . . . for so persecuted they the prophets which were before you." The cycle of good obliterates the epicycle of evil.

Let error rage and imagine a vain thing. Mary Baker Eddy is not dead, and the words of those who say that she is are the father of their wish. Her life is proven under trial, and evidences, 'As thy day is, so shall thy strength be." Those words of our dear, departing Savior, breathing love for his enemies, fill my heart: "Father, for-

give them; for they know not what they de."
My writings heal the sick, and I thank God that for the past forty years I have returned good for evil, and that I can appeal to Him as my witness to the truth of this statement.
What we love determines what we are. I have the prosperity of Zion, be it promoted by Catholic, by Protestant or by Christian Science, which anoints with truth, opening the eyes of the blind and healing the sick.

I would no more quarrel with a man because of his art.
When I wrote "Science and Health with Key to the Scrinteres," I 1-tie understood all that I indited; but when I practiced its precepts, healing the sigk and reforming the sinner, then I learned the truth of what I had written.

It is of comparatively little importance what a man thinks or believes he knows; the good that a man does is the one thing needful and the sole proof of Concord, N. H., Nov. 12, 1903

Radical Bills in Interests of Work.

ST. PETERSBURG, Nov. 22. - M. Filossofoff, the Minister of Commerce, said yesterday that under his superthe following projects A law making the legal workday ten

A law making the legal workday ten instead of 11t₇ hours; a law establishing compulsory insurance of workmen usual as a coldent and malady, and fixing old-age pensions; a law instituting a riscrous medical examination of factories, compelling manufacturers to build hysicine dwellings; for workmen and to provide the workmen with three medical attendants and a law placing restrictions upon the employment of women and children.

These bills constitute a sweeping advisce, which rivals the intentions of the new French Ministry, and which goes beyond the State and Socialistic paternalism in force in Germany. They will be presented to the new Parliament Feb. 7 1967
